A test is used to evaluate a dog, these themes are used to assess the psychological equilibrium of the dog as well, its tolerance vis-à-vis humans, and its reaction to unusual events. These themes must be coherent, and in direct relation to everyday life

It's also

-through an established, standardized gesture, the tester asks for a reaction, this reaction is analyzed by observing the expression of the dog, one takes into account-eyes-of the head-and body language.

-With regard to the whip, it is advisable to analyze it in fine, in order to avoid finding under the dog in question

The reaction of the dog is appropriate to the movement of the tester at the moment.

This expression is global, and the analysis can only be carried out by persons of experience and accredited at least by the National Dog Authority.

Dogs not all reacting to the same stimulus, it is essential to submit to the Dogs various stimulations (themes), to ensure the result of the test. Most dogs do not immediately reveal their aggression, it is essential that the testers know how to stimulate decipher, analyze, and also anticipate any spontaneous or underlying attitude of the dogs in question.

The assessment in question

For dogs on herd

Dogs with highly developed mental qualities can only be evaluated in packs at first, and then if some subjects are interesting individually

Organization:

This examination is carried out by a judge herd or Judge trial dog protection of the CSC, a tester officially designated by the Organizing Association, and if necessary helped dog of their choice

This examination can take place during a dog show, during pastoral days set up for the initiatives of the breed clubs or the pastoral technicians or herders' groups. It is intended to observe the sociability of dogs and their psychological balance, including towards animals.

The organizers will have to make available a herd of a dozen preferably non-pregnant (empty) sheep, in good sanitary condition and accustomed to the dogs which will be parked in an enclosure of fifteen city gates, or with screens of Ovine contentions of 1m high minimum.

The judge will ensure the good condition of the animals made available, of the conformity of the equipment.

OrganisationLe Jury:

C. A.N.T. must be judged by or a dog protection judge of the CSC, or a herd judge, or an approved tester after training, this one is appointed by the club or clubs of the breeds concerned.

The judge will ensure that the examination forms are properly completed. Before the tests start, the judge will have to explain to the candidates the purpose of these tests as well as the course of events.

After each dog, the judge will make a brief commentary on the behaviour of the dog examined at the address of the driver.

Candidates:

The driver will have to comply with the convening time and report to the secretariat upon arrival. He will have to submit to the health check and present the documents concerning the hired dog.

The driver will have to comply with the judge's wishes and in no way interfere with the work of the other candidates.

Presentation

At the invitation of the judge, the driver talks with him about the dog he presents, his living environment, his current or future education....

The judge presents to the candidates the aims sought and the interests of this type of examination

Recommended Event Plan

1-Exercise: umbrella, rattle and arms raised, the tester crosses the owner of the dog on the other side of the 4 gates, then if the attitude of the dog allows, the tester recrosses the team without the barriers between them.

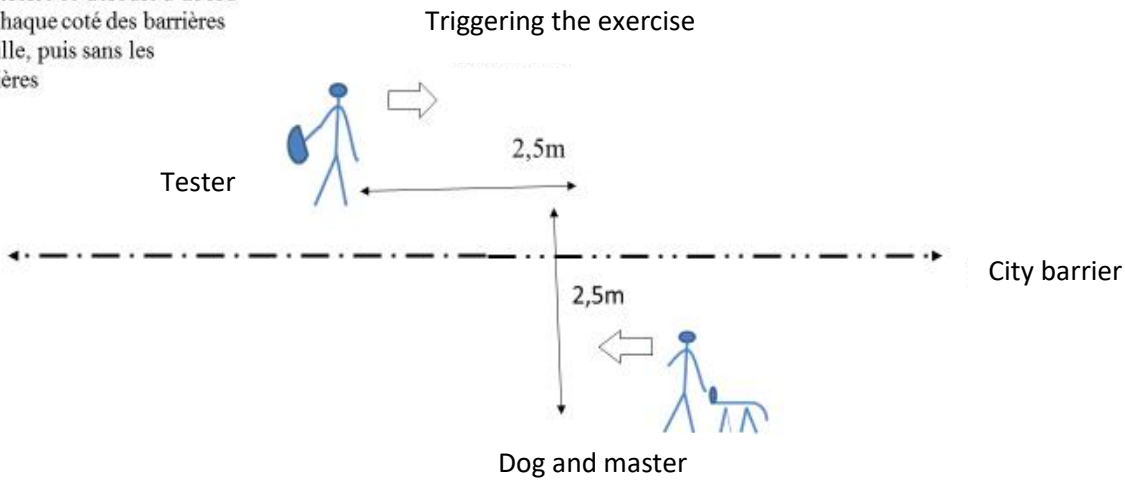

1-exercice : parapluie, crécelle et bras levés, le testeur croise le propriétaire du chien de l'autre côté des 4 barrières, puis si l'attitude du chien le permet, le testeur recroise l'équipe sans les barrières entre eux.

1-Sollicitations :

bras
parapluie
crécelle
L'exercice se déroule d'abord
De chaque côté des barrières
de ville, puis sans les
barrières

1- for Solicitations
Arm Umbrella Rattle

The exercises are
first on each side of
the barriers, then
without the barriers

2- 3m x 4 mètre plastic tarpaulin with 5 plastic bottles underneath

3-The dog kept on a leash not stretched, not conditioned by the master, revolves around the park outside, then enters the park, and if the attitude of the dog allows, this one is left free near the sheep (without leash)

The shot will be done in a place where I L will not hinder the dogs of the contest

-Le chien tenu en laisse non tendue, non conditionné par le maître, tourne autour du parc à l'extérieur, puis pénètre dans le parc, et si l'attitude du chien permet, celui-ci est laissé en liberté près des moutons (sans laisse)

Le coup sera fait dans un endroit où il ne gênera pas les chiens du concours
